SULABH JHAJHARIA

Portfolio Manager NAM-Singapore

Has over 19 years experience with 17 years experience in Indian equities, is currently managing the UCITS and one Managed Account portfolios for NAM – Singapore.

Has been with the organization since its inception in Singapore and has been through the whole life cycle of its India India Equity Growth Fund (IEGF), where he played a key role in fund management and research functions. Has worked in Citibank Global Consumer Investments group and with Infosys Technologies on various assignments for financial institutions.

Holds an MBA in Finance from NUS Business School, Singapore and has a B.Tech in Computer Engineering from IP University, Delhi. He is also a CFA charter holder.

SAILESH BHAN

NAM India CIO Equity

Possess a rich experience of over 28 years in equity research and fund management.

He has been associated with NLIAM since 2004 and manages some marquee offerings which are largest funds in their respective categories like Nippon India Multi Cap Fund and Nippon India Pharma fund along with Nippon India Large Cap Fund.

Each of these funds have a well-established track record with long vintage and have been managed by Sailesh Bhan since inception till date. Apart from the supervisory purview of over USD 15 Bn equity AUM, Sailesh personally manages equity assets of over USD 3.5 Bn.

NIPPON LIFE INDIA EXPERTISE AND ADVANTAGE

- NAM India specializes in managing the Small and the Mid Cap space fund in India.
- Large 28-member team tracking ~450-500 Indian stocks. 4-member team tracking only Small caps (Stocks beyond top 300 typically)
 40-45 Stocks covered per analyst.
- Our strong research and investment strategy/process in the Small and Mid Cap space has resulted us in managing the largest Small Cap
 Fund in the Indian Mutual Fund Space AUM Size (~USD 4Bn.) as on 30 Sep 2023.
- Deep analysis of business, management and on the ground primary research, strong emphasis on In-house Research to create differentiated positioning.
- NAM India's Small Cap Fund tops the second largest fund (AUM Wise) in the Small Cap Category by a huge margin of ~ USD 1Bn.
- NAM India also manages one of the largest Mid Cap Fund in India.
- NAM India's hosts one of a kind dedicated 4-member team which specializes and researches only on the Small Cap space.
- The team continuously aims to seek "Super Ideas" which is a highest conviction idea with potential to double in three years.
- It is because of this team and our dedicated 28 member on the ground research and analyst team, we are able to identify the high potential stocks quite early compared to our peers.
- Long Term Buy & Hold Strategy Compounding Wealth

NAM INDIA RESEARCH SUPPORT TO NAM SINGAPORE

- Fund Manager at NAM Singapore attends the daily morning call, result & quarterly update calls organised by the NAM India team.
- Same research shared across by the analysts with all the NAM India & NAM Singapore PMs.
- Investment Universe is shared by the NAM India team and is common across NAM India and NAM Singapore.
- Monthly PDCA call with the NAM India CIO based out Mumbai, India and the NAM Singapore PM to update and get feedback on the portfolios.

INVESTMENT PHILOSOPHY

- GARP (Growth at Reasonable Price) approach.
- Multicap strategy: Large caps being the leaders and Mid & Small Caps being the potential leaders of tomorrow. (Average 70% Large Caps-30% Small & Mid Caps).
- Combination of Top down and Bottom-up approach. High conviction
 Portfolio of 40-60 stocks.
- Buy and Hold Strategy: Holding period of 2-3 years.
- Focus on high quality management teams of companies invested, driven by intense on the ground research, using our Research Team of 30 people, one of the largest in India.
- Focus on companies with Consistent Sales growth > Sector Average, or on the cusp of growth recovery.
- Focus on companies with Actual ROCE > Cost of Capital or visible in near term.
- Quality: Balance sheet with low Debt/Equity.

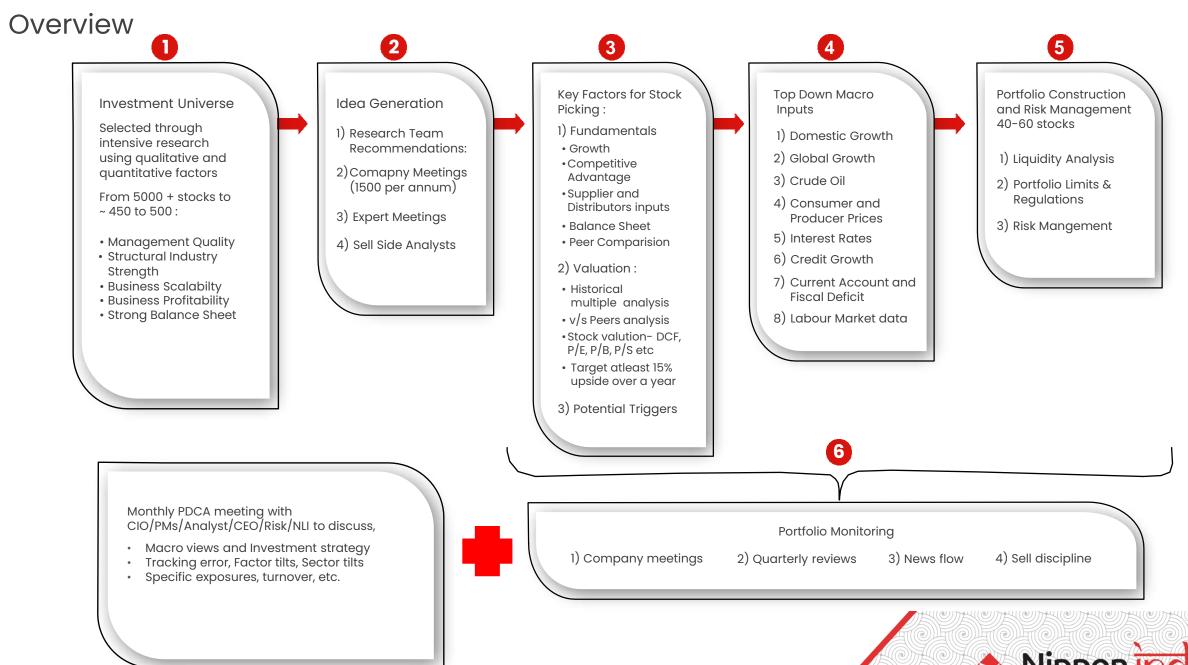

Investment Process

٠,

INVESTMENT PROCESS

Step 1: Defining the Investment Universe

Total Stocks listed in Indian markets: 5000+

FILTER 1: Market Cap greater than USD 150 mn: ~ 1000 stocks or 98% of the total market cap

FILTER 2 ~ 450 to 500 stocks

- Management Quality Impeccable corporate governance standards and consistent strategy
- Structural Industry Strength Industry on a growth path with no terminal growth concerns
- Business Scalability Incremental ROCE should be higher than existing ROCE.
- Business Profitability Business growth with improving or stable EBITDA margin
- Strong Balance Sheet- Low Debt/Equity vs industry peers
- Any stock to enter (leave) the NAM India Investment Universe needs to be approved by the Investment Department Committee composed of 15 senior investment team members.

Continued Monitoring of Investment Universe:

- 1) Regular Company and Factory Visits
- 2) Primary Research Meeting with Distributors Suppliers and Clients
- 3) Sell Side analyst meetings
- 4) Inhouse Financial Models

Step 2: Idea Generation Sources

Research Team Recommendations:

- Model Portfolio (10-15 stocks) Weights allotted by analyst vs SEBI defined Large Cap and Mid Cap Index
- Absolute Return Ideas (5-10 stocks) with 15-20% returns in near term
- Super Ideas (Upto 3 ideas) Highest conviction idea with potential to double in three years

Company Meetings

Meet the managements of listed companies including the IPOs

Expert Meetings

Economists, consultants, distributors, suppliers in various industries

Brokers keep on sharing their top ideas with us

Sell Side Analysts

Stock Picking: Fundamental + Valuation

Portfolio Construction

Step 3: Key Factors for Stock Picking

1) Fundamentals:

- Growth Stable historical growth and ability to grow faster than the industry
- Competitive Advantage Competitive advantage to differentiate Vs peers
- Supplier and Distributors inputs Ability to pay suppliers on time and service the clients
- Balance sheet strength
- Peer comparison Various ratios compared with the peer set

2) Valuation:

- Historical multiple analysis
- Comparision of the valuations with the industry peer set
- Stock Valuations DCF, Price/Earnings, EV/EBITDA, Price/Book, Price/Sales, Sum of Parts (SOTP)
- Target at least 15% upside over a year

3) Potential Triggers:

• Triggers in near and medium term for the stock to move. Eg: strong earnings

Step 3: Key Factors for Stock Picking - Example

Varun Beverages

Investment Thesis for entering the portfolio in Jan 2018

- •Industry Growth: From 2010 to 2018 beverage industry grew at 20% CAGR and expected to grow at 8% 9% CAGR for next few years.
- Company Growth: Controlled 50% of Pepsi's geographies and expected to buyout more. Expected the company to grow sales at 12% CAGR and PAT by 20% over next 3 years.
- RoCE Expansion: 1) Pan-India distribution of ~2mn outlets;
 - 2) Multiple (36) manufacturing units close to consumption centers, which reduces freight costs; and
 - 3) Backward integration.
- **Valuations**: At INR 350 was trading at 12.5x1 yr forward EV/EBITDA. RoE 30%+, FCF generation. Valued it at 20x EV/EBITDA, discount to other FMCG companies getting a target of INR 600.

Step 4: Top Down Macro Inputs

At Nippon Life India Asset Management, the Head of Research is also the Macro Economist for the investment and research team

Macro inputs:

- Domestic GDP Growth Strong GDP growth positive for Financials, Industrials, Consumer Discretionary
- Global Growth Strong global growth positive for exporters like Information Technology
- Crude Oil India is a big importer of crude oil so high crude oil prices negatively impact sectors like manufacturing, Oil Marketing companies, Airlines
- Consumer and Producer Price In high inflation look for sectors which pass on the raw material cost
- Interest Rate High interest rates impact negatively on leveraged companies and increase cost of Capital
- Credit Growth Strong credit growth good for Banking
- Current Account and Fiscal Deficit Current Account Deficit impacts currency and Fiscal impacts cost of capital
- Labour Market Data Strong labour market points to strong consumption

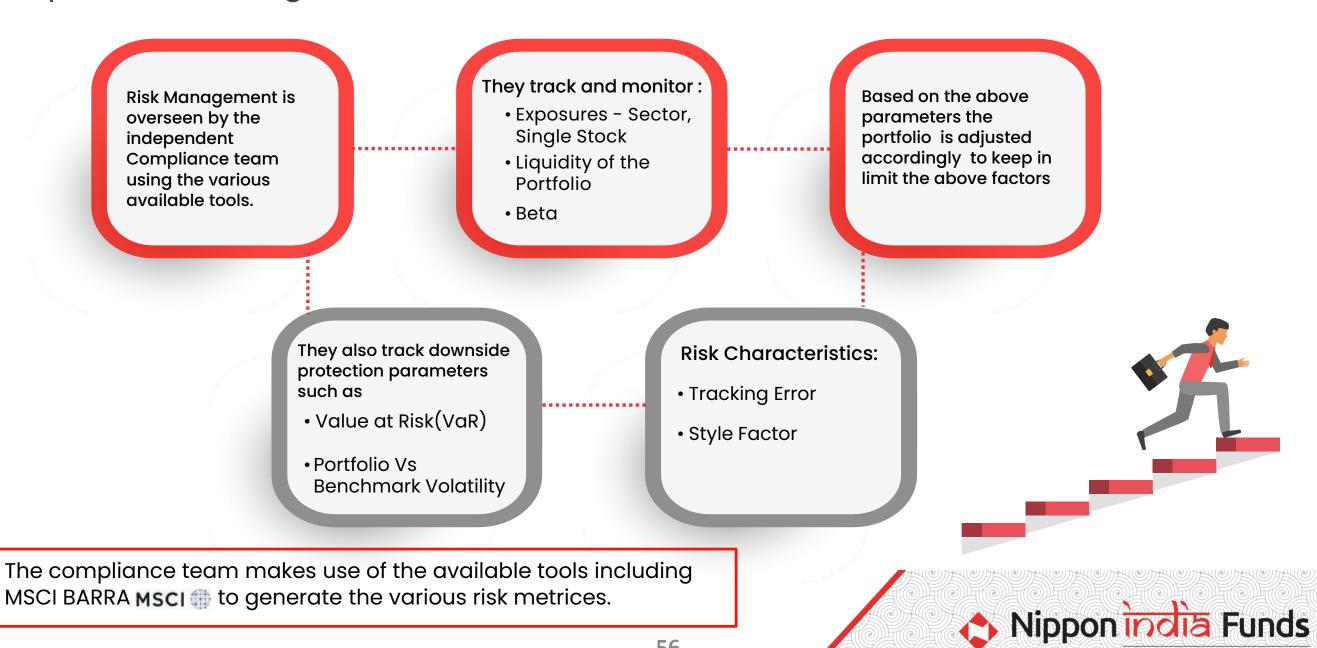

Step 5 : Portfolio Construction Parameters and Guidelines

- Liquidity: 70% of AUM in 3 days and 100% of AUM in 7 days
- Maximum Sector Exposure: 35% in each sector
- Maximum Sector Deviation: 10% vs Benchmark
- Maximum Mid Cap Single Stock: 3.5% of AUM at time of investment
- Maximum Small Cap Single Stock : 2% of AUM at time of investment
- Maximum Mid/Small Caps Aggregated Exposure : 50%
- Maximum Cash: 10%
- Portfolio beta ~1
- UCITS Regulations: 1) Max 10% per stock 2) 5:40 Rule

Step 5 : Risk Management

Wealth sets you free

Step 6: Portfolio Monitoring

- Company Meetings Higher frequency of company meetings of portfolio owned companies.
- Quarterly Reviews Every portfolio owned company is reviewed by the internal research analyst team post every quarterly result season.
- News Flow Monitoring the news flow around the company and the industry.
- Sell Discipline When target price is reached or if any concern on the corporate governance develops in the company.

ESG INITIATIVE

- Our parent NAM India is Signatory to UN-PRI (Principles for Responsible Investment
- Our investment team is in the process of rating the stocks in our universe based on our internal ESG Model
- Current Investment Policy:
 - Minimum 75% of NAV invested in companies rated by Sustainalytics
 - Maximum weighted Rating Score of 33 for rated companies
 - Maximum 10% of NAV in investee companies that are rated above 52

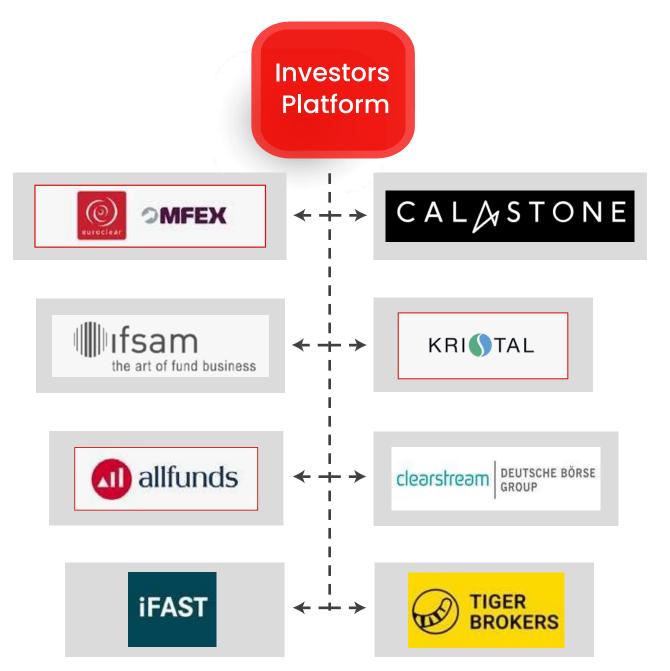

Sustainalytics Scoring Guide				
Ratings Score (Points)	ESG Risk			
0 - 9.99	Negligible			
10-19.99	Low			
20-29.99	Medium			
30-39.99	High			
40 and higher	Severe			

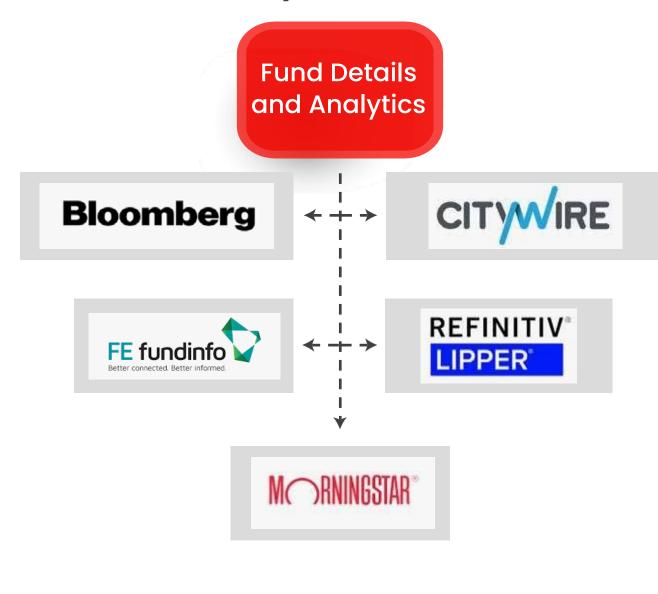

^{**}The higher the score the higher the risk of material financial impacts driven by ESG factors. Generally speaking, less ESG disclosure implies higher uncertainty and, hence, higher risk from an investment perspective. Consistent with this view, companies with poor disclosure will typically do worse in our ratings.

^{**} India as a market is expected to catch up with global ESG trend over time
