Key Investor Document

LetkoBrosseau
Global Investment Management

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product: Letko Brosseau Global Emerging Markets Equity Fund (the "Fund")

A sub-fund of Candoris ICAV (the "ICAV")

Class I1 (IE000LCBW880)

PRIIPs Manufacturer: Universal-Investment Ireland Fund Management

The management company of the ICAV is Universal-Investment Ireland Fund Management Limited, trading as Universal Investment Ireland (the "Manager"), which is authorised in Ireland and regulated by the Central Bank of Ireland, who is responsible for supervising the Manager in relation to this Key Information Document.

This document was published on 25 March 2026.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

This product is a UCITS Fund.

Term

The Fund has no maturity date.

Objectives

Investment objective

The investment objective of the Fund is to seek long-term capital appreciation.

Investment approach

The Fund will pursue its investment objective by investing at least 80% of its net asset value, and up to 100% of its net asset value in a diversified portfolio of equities and equity-related securities from companies operating in countries classified as Emerging Markets or Frontier Markets.

Investment policies

The Fund will primarily invest in a diversified portfolio of equities and equity-related securities. The Fund may also hold up to 20% of its net asset value in cash or ancillary liquid assets and up to 10% of its net asset value in investments in collective investment schemes.

The Fund will invest in emerging market countries that are typically those of poorer or less developed countries and other countries which typically exhibit lower levels of economic and/or capital market development, and higher levels of share price and currency volatility. The Fund may also invest in frontier market countries, which are a subset of and are the least developed amongst the emerging market countries, with less developed capital markets and lower liquidity.

The Investment Manager follows a bottom-up fundamental analysis approach to uncover investment opportunities in emerging markets, performing in-depth research for each potential investment opportunity, taking in consideration expected returns and risks. The Investment Manager seeks to manage the risk profile of the Fund through diversification of investments by country, sector and company and by paying a fair price in relation to its estimates of the underlying businesses value, as determined by the Investment Manager.

The Investment Manager aims to exploit inefficiencies in emerging markets across the spectrum of market capitalisation.

The Investment Manager will seek to concentrate the Fund's investments in what it believes to be best, highest conviction ideas in emerging markets where the Fund may generate positive return on investment over the long-term.

Benchmark uses

The Fund is actively managed and the choice of investments is not made by reference to a benchmark. The Fund's performance is compared to the MSCI Emerging Markets Total Return Net Index (the "Benchmark"). The Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities, which are not constituents of the Benchmark.

Redemption and Dealing shares

You can buy and sell Shares on any Business day on which the value of the shares are calculated, exceptions to this are more fully described in the Fund holiday calendar available from the Administrator.

Distribution policy

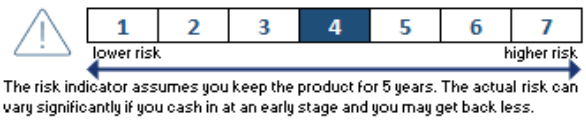
This Class of Shares does not pay out a distribution. Any investment income generated will be reinvested.

Intended Retail Investor

This Fund is designed for retail and institutional investors seeking pooled exposure to equities in Emerging Markets and Frontier Markets and who are comfortable with a higher level of investment risk and volatility. It is expected that the Fund will be held as part of a diversified portfolio of investments. This Fund has been designed to form part of a broader portfolio of investments. It may also be suitable as a significant component of an investors overall portfolio and should be purchased with advice or on an execution only basis by a basic investor and should be viewed as a long term investment. Investors must be able to bear loss of capital in order to seek to generate higher potential returns.

What are the risks and what could I get in return?

Risk



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. Historical data may not be a reliable indication for the future.

The risk indicator category shown is not guaranteed to remain unchanged and the categorisation of the Fund may shift over time.

We have classified this product as 4 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level and poor market conditions could impact the value of your investment.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at www.candoris.nl. Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 5 years. Where the Fund does not have 5 years of historical data, the relevant benchmark data is used. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period		**5 years**		
Investment	**$**	**10,000.00**		
Scenarios		**If you exit after 1 year**	**If you exit after 3 years**	**If you exit after 5 years** (recommended holding period)
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.				
Stress	**What you might get back after costs**	$ 4,756.61	$ 5,449.64	$ 4,284.23
	Average return each year	-52.43%	-18.32%	-15.59%
Unfavourable	**What you might get back after costs**	$ 12,519.40	$ 11,886.32	$ 7,691.69
	Average return each year	25.19%	5.93%	-5.11%
Moderate	**What you might get back after costs**	$ 15,331.44	$ 16,263.00	$ 11,977.70
	Average return each year	53.31%	17.60%	3.68%
Favourable	**What you might get back after costs**	$ 18,897.72	$ 22,306.90	$ 18,682.48
	Average return each year	88.98%	30.66%	13.31%

What happens if the Manager is unable to pay out?

The failure of the Manager will have no direct impact on your payment, if the Manager becomes insolvent the Fund does not become part of the insolvency assets of the Manager, but rather remains separate. There is no public or private investor compensation scheme that can compensate for any losses due to the insolvency of the ICAV, the Manager or the Investment Manager

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the Fund performs as shown in the moderate scenario.

Investment: $ 10,000.00	**If you exit after 1 year**	**If you exit after 3 years**	**If you exit after 5 years** (recommended holding period)
Total costs	$ 119.08	$ 384.15	$ 664.35
Annual cost impact (*)	1.2%	1.2%	1.2%

(*) This illustrates how costs reduce your return each year over the holding period.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	We do not charge an entry fee for this product, but the person selling you the product may do so.	0
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0

Indicental costs taken under specific conditions		**Annual cost impact if you exit after 1 year**
Performance fees	There is no performance fee for this product.	0

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Fund is designed to be held over the medium term and we recommend that you hold this investment for at least 5 years.
You can request to take out some or all of your money at any time, without penalty, or hold for a longer period. You can typically request to buy or sell Shares in the Fund on any Business day in Ireland or New York subject to the terms set out in the section 'Key Information for Buying and Selling' of the Funds' Supplement.

How can I complain?

If you have any questions or complaints, please contact your investment advisor or intermediary first. Complaints can also be submitted in writing to Universal-Investment Ireland Fund Management Limited, Kilmore House, Spencer Dock, North Wall Quay, Dublin 1, D01 YE64 or via e-mail to: UII.SS.Comp@universal-investment.com. Further details on the complaint process are available at the following website: https://www.universal-investment.com/-/media/Compliance/PDF/ Ireland/Complaint-Handling-procedure_UII_EN.pdf.
